

## Technical Bulletin

# Crystal Shine System

### DESCRIPTION/FEATURES

Crystal Shine System.

Restoring the brilliance and increasing the resistance to the traffic and contaminants & natural solid of the floor, developing resistance with properties anti-stains best on Porcelain, Agglomerate Stone and most natural stones & Tiles CSS consist of two parts of inorganic mineral.

Mineral powder ; The base has the function to act as a vehicle for polishing, cleaning and covering the pore. inorganic solids form mineral deposits in the pores Under normal conditions, the base will be applied once during the life of the treatment. These additional minerals are fused to the base to provide protection against traffic, contamination and other conditions creating step by step a film of high gloss and durability. It provides the characteristics of a boron silicate glass with high capacity for thermal, chemical resistance and Slip Resistance.

### Uses

Recommended for use on:

- Serpentine
- Granite
- Agglomerate Stone & Tiles
- Porcelain and Ceramic Tiles
- Other Compress Stone

### Available sizes

**Liquid Quart (946 ml) & Gallon (3785ml)**

**Powder 900 grams Container Tub**

### Coverage

- Approximately 1000 sq. ft. (100 m<sup>2</sup>) per 1 liter & 0.9 kg of Powder

### Method Of Application

Read entire label before using

- 1) Sweep or vacuum surface.
- 2) Surface to be polished must be free of existing sealers or coatings.
- 3) Protect baseboards, carpet, etc. with protective plastic
- 4) MIX Power & liquid on floor surface 1:1
- 5) Using a natural hair or synthetic fiber white or pink floor pad, work the area in a side-to-side motion with a 175 to 300 RPM floor machine.
- 6) The consistency of the Crystal shine Powder & liquid should be fluid enough to achieve even coverage.
- 7) For large areas, work in small sections and be sure to overlap the sections to achieve an even polish.
- 8) Apply or spray CSS liquid as require for higher gloss result.
- 9) Continue until the required polish has been achieved
- 10) Polish dry with a new polishing pad or cotton bonnet.

### Handling and Storage

- Close container after each use
- Store in original container only

### Caution

- KEEP OUT OF REACH OF CHILDREN
- Do not take internally.
- If prolonged use of product, wear rubber gloves
- IF INGESTED: Do not induce vomiting. Drink 1 to 2 glasses of water. Seek medical attention.
- EYE AND SKIN CONTACT: Flush thoroughly with water. If irritation persists, seek medical attention.
