COMPLETE RANGE OF INDUSTRIAL CLEANING MACHINES, CHEMICALS AND ACCESSORIES

GLOSSY POWDER MARBLE

DESCRIPTION:

Glossy Powder is a unique blend of polishing compounds that will restore the natural polish of most stone surface. It designed to restore “factory-like” shine. It will remove superficial scratches; etch marks and rings caused by certain acids in fruit juices, spirits, vinegar, etc.

USES:

Recommended for use on polished marble, terrazzo and agglomerate surfaces with a floor machine.

AVAILABLE SIZES:

Glossy Powder is available in 5-kg pail.

METHOD OF APPLICATION

Read entire label before using

TEST A SMALL AREA, according to application instruction to determine desired results.

Procedures:

1. Use either Master Mp18 or scrubbing machine (110 to 180 pound) with white, red, natural or felt buffing pad.
2. Ensure surface is clean, dry and free of existing coatings.
3. Apply 6 ounces of water to the surface and apply half of a cup of **Glossy Powder** to the water and work it together to form slurry. (Subsequent areas will require slightly less as polishing pad will retain product)
4. Polish manageable area approximately 10 sq. ft.
5. To check the results, move the slurry with a squeegee and reapply if more buffing is necessary.
6. When desired results appear, push the slurry to another work area or pick it up with a wet vacuum cleaner. Rinse immediately with **Master Stone Cleaner**.
7. Buff the completed area with a clear dry white pad to preserve luster.
